PR815 Women's 'Recyclight' Padded Gilet

Description

A lightweight and water resistant padded gilet made from 100% recycled nylon and polyester for a great sustainable outerwear solution. Horizontal stitching across the gilet creates baffles to ensure even distribution of the insulation within. This women's 'Recyclight' gilet is filled with recycled synthetic down for warmth, whilst also being lightweight enough to fold away in its own stuff-sack. A full zip-through style with two zipped side pockets and a handy open pocket to the inner lining. A zip in the inner lining gives full embroidery access, making for a great corporate or teamwear solution that can be branded accordingly.

Product Features:

- Zip-through padded gilet with horizontal baffle detail.
- Two zipped side pockets.
- Warm, lightweight and water-resistant.
- Front and back panels
- Stuff sack for packing down
