peacock-blue (2728 C)
spicy-orange (485 C)

Features

Climactive

Our innovative functional fabric helps the body to stay in the optimum temperature range at all times. The active particles in the fabric react to the body heat and moisture - they accelerate evaporation when you are too warm and slow down heat loss when you cool down.

GRS Standard

PET bottles are recycled into new fashion. Plastic bottles are crushed, melted down and spun into new yarns, some of which are used in production up to 100%. The Global Recycled Standard (GRS) stands for independently verified recycled materials, transparent supply chains and fair, environmentally friendly and health-conscious production conditions.

Stand: 20.11.2025 - 03:44:54
